Education

BTech in Computer Science, Amrita Vishwa Vidyapeetham
GPA: 8.12/10.0

Aug 2023 – May 2027

Upskilling and Leadership

DSA and Placement Preparation Team Lead

Apr 2025 – June 2026

- GeeksforGeeks Campus Body, Amrita Vishwa Vidyapeetham
- Led DSA and placement readiness initiatives for students.
- Conducted mock interviews, coding sessions, coding contests.
- Mentored peers in DSA, coding patterns, and problem solving techniques.

DSA and Competitive Programming Enthusiast

2023 - Present

- Solved over 900+ problems on LeetCode (view profile).
- Achieved a highest LeetCode rating of 1868(top 4.96% globally - Knight Level).

Hackathon Participant

- Winner - DeltaBuild 2026.
- Runner - CodeRoyale.
- Finalist at SRM HackRush 1.0 and Hacktide.

Projects

LaborLink – A Full-Stack Job Marketplace for Small-Scale Industries (view).

- Architected a full-stack platform using React and Firebase to connect small-scale industries with laborers.
- Core features like job posting, application tracking, user rating/reporting systems, and profile management.
- **Tech:** React, Firebase, Cloudinary, Python, JavaScript.

Real-Time Traffic Monitoring and Analysis (view).

- Implemented YOLO-based vehicle detection using OpenCV for real-time traffic analysis.
- Built a React.js user interface integrated with Firebase, reducing data transmission latency to under 0.5 seconds for live traffic visualization.
- **Tech:** Python, YOLO, OpenCV, Firebase, React.js, JavaScript

Privacy-Preserving Edge Video Cartoonifier (view).

- Engineered an edge-based computer vision middleware using YOLOv8 and OpenCV to dynamically blur and anonymize sensitive video backgrounds.
- Processed real-time video feeds with 78 percentage faster execution speeds using masked bilateral filtering, integrated with a React.js analytics dashboard.
- **Tech:** Python, YOLOv8, OpenCV, React.js, JavaScript

Other Major Works: Shree Labels Corporate Website–Full-stack commercial web application built and deployed to production using React.js, Firebase, and Vercel. (view)

Skills

Strongest Areas: Data Structures and Algorithms — C++ — Problem Solving

Languages: C, C++, Python, SQL

Frontend: HTML, CSS, JavaScript, React.js

Backend and Databases: Node.js, Express.js, Firebase (NoSQL), MySQL

AI/ML: Model Training, TensorFlow, PyTorch, BERT, Scikit-learn, OpenCV, NLP, Transformers, Sentiment Analysis

Tools and Technologies: Git, GitHub, Cloudinary, Vercel
